Springfield, Missouri 65802

Dear Sirs:

This letter will confirm our conversation at the address noted above concerning the used oil disposal complaint this office received. As a result of the on site inspection, it appeared no waste oil had been dumped on the parking lot South of the building.

What was observed was a single dark streak on the gravel surface that your manager stated was the result of a broken crossover line connecting the two saddle tanks on a tractor. The tractor was moved across the lot and later transferred to another location by a wrecker.

Waste oil is regulated by the State of Missouri as a special waste and as such there are specific requirements to be observed. You may wish to contact Mr. Chuck Kroeger, Missouri Department of Natural Resources, 1155 East Cherokee, Springfield, Missouri (883-4033) if additional information is desired.

If you have any questions please contact this office at 864-1924.

Yours truly,

Stephen D. Short
Water Pollution Control Inspector II
